Efficient

The following list contains keyboard shortcuts that use the Windows logo key

Win (Windows Logo Key) - Open or close the Start menu

Win + Pause - Display the System Properties dialog box

Win + D - Display the desktop

Win + M - Minimize all windows

Win + Shift + M - Restore minimized windows to the desktop

Win + E - Open Computer

Win + Up Arrow - Maximize the window.

Win + Left Arrow - Maximize the window to the left side of the screen

Win + Right Arrow - Maximize the window to the right side of the screen

Win + Down Arrow - Minimize the window

Win + Home - Clear all but the active window.

Win + Space - All windows become transparent so you can see through to the desktop.

More Interesting Hotkeys

Ctrl + Shift + N - Creates a new folder in Windows Explorer.

Alt + Up - Goes up a folder level in Windows Explorer.

Alt + P - Toggles the preview pane in Windows Explorer.

Shift + Right-Click on a file - Adds Copy as Path, which copies the path of a file to the clipboard.

Shift + Right-Click on a file - Adds extra hidden items to the Send To menu.

Shift + Right-Click on a folder - Adds Command Prompt Here, which lets you easily open a command prompt in that folder.

Win + P - Adjust presentation settings for your display.

Win + (+/-) - Zoom in/out.

Win + G - Cycle between the Windows Gadgets on your screen.

Windows 7 Tricks

<http://www.computerworld.com/>

Ok, so the tech folks out there will have heard of ComputerWorld. Since this issue revolves around Windows 7, we thought it was fitting to insert a webpage with some tricks...to add flare! Here are a few Windows 7-specific tips and tricks that will help speed up your efficiency. One of the favorites is the ability to click and wiggle the top of any window. This minimizes all other windows that are currently open. Like most of the tricks, it will come in handy once you incorporate it into your shortcut and hotkey tool belt.

Enjoy!
